Dear Administrators and Counselors,

The Mississippi Department of Education's *Approved Courses for the Secondary Schools of Mississippi* offers a wide variety of courses for high school students, beginning with grade seven and continuing through grade twelve. The purpose of the *Approved Courses for the Secondary Schools of Mississippi* is to help select the courses that are best for students. Choosing the right courses for a high school program is an extremely important task and should be thoughtfully developed with students and their parents.

When using this manual, some guiding questions to consider:

- What courses are required for graduation?
- When will the school offer the required courses?
- What are the local interests and areas which need developing?
- How will you use the ISP (Individual Success Plan) to create a secondary course plan best suited for your students and their high school goals?
- How can the school strategically plan (or offer) academic programs that move students forward?

On behalf of the Offices of Secondary Education and Professional Development, I wish you much success.

Mississippi Student Information System (MSIS)

In order to generate the most current approved course codes listing from the Mississippi Student Information System (MSIS), please follow the directions on the next page to create an Approved Secondary Course Codes Report.

NOTE: An **example** of an Approved Secondary Course Codes Report from the Mississippi Student Information Systems (MSIS) is attached at the end of this document. The report is only an example and does not include all approved courses listed in the Mississippi Personnel/Accreditation Data system (i.e. course code for elementary, special schools, etc.). Also, this report does not reflect or include courses that are presently being developed, revised or will be deleted after July 30 of each year.

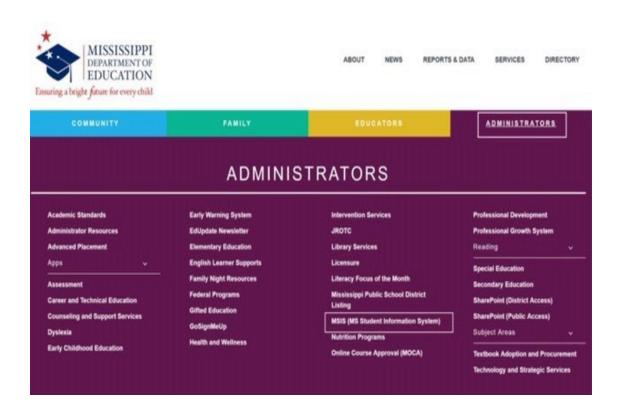

To ensure the most current list of available approved courses is being used, please generate a current Approved Secondary Course Codes Report from the Mississippi Student Information System (MSIS).

APPROVED SECONDARY COURSE CODES REPORT for the Secondary Schools of Mississippi

The following procedures will help district administrators and counselors keep abreast of current changes to courses, course codes and other relevant information on approved courses. Administrators and counselors should periodically review approved courses through the MSIS electronic database in order to make the correct decisions for helping students develop their Individual Success Plan and prepare for graduation and post-secondary requirements.

Every counselor should be able to access MSIS through "limited" access with a personal log-in. If you do not have a log-in, ask for assistance from the district MSIS data manager. In order to generate the Approved Secondary Course Codes Report, please follow these steps:

From the website
 (www.mdek12.org), select
 Administrators and then MSIS
 (MS Student Information
 System) from the dropdown
 selections.

2. Choose MSIS Log-on from the right side of the MS Student information Systems (MSIS) page.

NOTE: Your browser may prompt you to "run" or "trust" Java in order to launch the MSIS log-on.

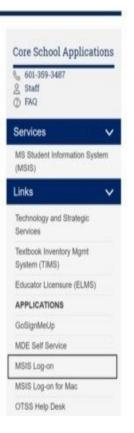

MS Student Information System (MSIS)

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1962. This creation was strengthened by further legislation in 1994. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level – it required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with this state legislation as well as federal requirements for reporting.

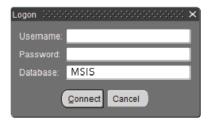

MSIS provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The n which to:

- Support the Mississippi Department of Education (MDE) pi :: armance-based: accreditation model
- · Support education funding programs
- Provide timely and accurate reporting of education data (sc. scules, attendance, grades, transportation, disciplin Vocational, and Special Education) to meet state and feder requirements
- Allow for student tracking across the state to determine stu nt mobility trends and to assist in the reduction of tl drop-out rate within the state.

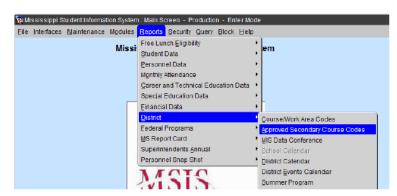

3. Log-on to MSIS, making sure to use the appropriate credentials. In the "Database" field, type MSIS.

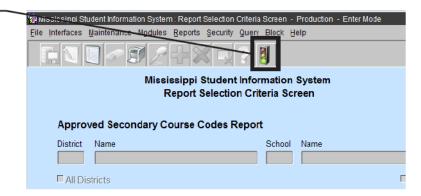

4. Once you have logged in, you should see the main view page.

 In the Menu bar at the top of the screen, choose Reports > District > Approved Secondary Course Codes.

6. From this page, click the traffic light icon to run reports.

7. Select your preferred output format (PDF is recommended), and chose Run Report.

8. You can save the report and print it for your records.

NOTE: At the time the report is run, it may not reflect or include courses that are presently being developed, revised, or will be deleted. To ensure the most current list of available approved courses is being used, please run this report regularly.

The Mississippi Student Information System (MSIS) Carnegie Unit Code Chart

This list is extracted directly from the MSIS course listing report. The MSIS course listing report uses a Carnegie Unit Code System to indicate the potential Carnegie units and course terms for each course listed. Below is a chart detailing the Carnegie units and course term combinations represented by the Carnegie Unit Code System used in MSIS. Refer to this chart to understand the possible Carnegie unit/course term combinations for the courses listed in this report.

Traditional Diploma (Appendix A-6)

(Entering ninth graders in 2018-2019 and thereafter)

Each student graduating from a secondary school in an accredited school district will have earned the required Carnegie units as specified in the following table. Contents of each required and elective course must include the core objectives identified in the *Mississippi College- and Career-Readiness Standards*. Course titles and identification numbers must appear in the current edition of the *Approved Courses for Secondary Schools of Mississippi*. (See Miss. Admin. Code 7- 3: 28.2 and 28.3, State Board Policy, Chapter 28, Rules 28.2 and 28.3.) Students enrolled in grades 7 – 12 may be awarded a Carnegie unit credit provided the course content is a Carnegie unit bearing course in the current edition of the *Approved Courses for the Secondary Schools of Mississippi*. Enrollment in online courses listed in this document must have prior approval granted by the principal.

Any student who completes the minimum graduation requirements as specified below and has met the requirements for each of the required high school assessments is eligible to receive a high school diploma. The local school district may establish additional local requirements approved by the local school board as authorized under Miss. Code Ann. § 37-16-7.

Beginning school year 2018-2019 and thereafter, all entering ninth graders will be required to have a minimum of 24 Carnegie units as specified below. Student may earn one (1) of the following endorsements to be added to the traditional diploma: Career and Technical Endorsement, Academic Endorsement, and/or Distinguished Academic Endorsement. The local school district may establish additional local requirements approved by the local school board as authorized under Miss. Code Ann. § 37-16-7.

Credit Recovery Guidelines

DESCRIPTOR TERM: Credit Recovery

Policy RULE: 28.5

ADOPTION DATE: May 19, 2008

The purpose of the Credit Recovery Policy is to provide guidance to Local Education Agencies (LEAs) with Credit Recovery Programs. Credit recovery allows students who have been unsuccessful in mastering content or skills an opportunity to apply for credit recovery as an alternative to repeating the entire course.

- I. Credit recovery is defined as a course-specific, skill-based learning opportunity for students who have previously been unsuccessful in mastering content/skills required to receive course credit or earn promotion. In order to be eligible for credit recovery, a student must have unsuccessfully completed and failed a course or failed a SATP assessment.
- II. Beginning with the 2008-2009 school year, any LEA who provides a Credit Recovery Program shall develop and implement a Credit Recovery Program that has been adopted by the school board and that includes rules, regulations, and processes. The rules, regulations, and processes shall be available to faculty, students, and parents/guardians. At a minimum, LEAs must address the following areas:
- 1. Admission to and removal from the Credit Recovery Program
 - a) LEAs shall establish an application process that requires parental consent.
 - b) LEAs shall establish minimum criteria to determine eligibility for participation in the Credit Recovery Program.
 - c) LEAs shall determine the number of Credit Recovery Courses that a student can take at one time.
 - d) Students shall not remain in a Credit Recovery Course for more than one year.
 - e) Only students that have failed a course may enroll in credit recovery to earn a minimum passing grade. Credit recovery cannot be used by a student that has passed the course to improve the students assigned course grade.
 - f) A student that has passed a SATP class but failed the SATP assessment may enroll in credit recovery for remediation only. The grade earned for the SATP class remains unchanged.

2. Instruction:

- a) LEAs shall determine the instructional methodology used for the Credit Recovery Program (i.e., online program, Mississippi Virtual Public School (MVPS), direct instruction, computer assisted instruction, etc.).
- b) If an online credit recovery program is used, the online delivery must be supervised by a licensed teacher employed by the LEA that issues the final credit recovery grade. The LEA must ensure that content and instruction is aligned to the Mississippi College and Career Ready Standards and the Mississippi Curriculum Frameworks.
- c) LEAs shall provide professional development for teachers and facilitators involved with the Credit Recovery Program.
- 3. Content and Curriculum: Credit Recovery Curriculum shall be based on the Mississippi College and Career Readiness Standards competencies and objectives.
- 4. Grades: LEAs are responsible for establishing specific procedures for evaluation of student progress and determining grades.
- 5. <u>Beginning school year 2016-2017, a student who selects credit recovery to earn a Carnegie unit shall only earn the minimum passing grade on the district grading scale.</u>
