Degrees Earned
- 19,162 RECORD NUMBER

+1K by 2025
The increased space in the Phil Bryant Medical Education Building at the University of Mississippi Medical Center allows UMMC to increase its class size from 145 to 165, helping the state reach its goal of increasing the number of physicians in the state by 1,000 by 2025.

Mississippi is the 2nd state, after Arizona, to have all its public universities that are currently rated by FIRE, the Foundation for Individual Rights in Education, earn a green light rating for policies protecting free speech.
Alcorn State University offers a master’s degree in Computer and Information Science, with emphasis in artificial intelligence, cybersecurity, database management and programming languages.

Mississippi University for Women’s RN to BSN program has been consistently ranked as one of the top hybrid-online and campus-based classroom experiences in the nation.

Delta State University is the only university in Mississippi to offer undergraduate and graduate aviation programs. The department offers a bachelor of commercial aviation, with concentrations in flight operations, aviation management, and logistics.

FedEx Logistics recently selected Mississippi Valley State University as the first university to participate in its new HBCU Program. The company has opened a satellite office on the MVSU campus and filled most of the part-time positions with students.

Jackson State University is accredited by AACSB International, an honor only six percent of business schools worldwide earn, and JSU is only one of two HBCUs in the country that offer a Ph.D. program in accounting.

The Center for Manufacturing Excellence (CME) at the University of Mississippi offers a unique undergraduate degree for careers in manufacturing and has close ties to industry leaders, including Toyota and GE Aviation.

Mississippi State University offers the state’s only petroleum engineering degree program in response to a high demand from industry for graduates with experience in drilling, production, petroleum economics and reservoir engineering.

The state’s only academic health science center, the University of Mississippi Medical Center includes seven schools: medicine, nursing, dentistry, health related professions, graduate studies, population health and pharmacy.

Mississippi State University is one of only six U.S. higher-learning institutions currently offering poultry science degrees, boasting 100 percent placement of graduates since the first poultry science degree was awarded in 1948.

The University of Southern Mississippi offers the only ocean engineering degree in Mississippi - one of only 10 such programs in the nation. Students find careers in shipbuilding, maritime industry, offshore exploration, port operations and more.
