7. **UM** - Approved the initiation of **GS 207-346, Stockard Hall and Martin Hall Brick Veneer Replacement**, and the request to select a design professional using the “Request for Qualifications” process through a publicly advertised RFQ. The two buildings share a lobby and, over time, water penetrated the brickwork causing the shelf angles to oxidize which in turn caused the mortar to crack and loosen. The project involves removing the masonry skin in its entirety from the seventh floor to the eleventh floor and replacing the brick and re-installing windows on floors seven through eleven. The estimated project budget is $4 million. Funds are available from auxiliary R&R funds ($4 million).

8. **UMMC** - Approved the initiation of **IHL 209-540, School of Dentistry Restorative Lab Renovations**, and the appointment of Mark Vaughan as design professional. The project will include renovation of approximately 3,750 square feet of existing School of Dentistry Lab space. The existing Restorative Lab suite will be renovated/upgraded to provide modern Restorative Lab design and includes new laboratory casework, upgraded utilities, additional offices, and support space as well as new digital simulation area and equipment. The estimated project budget is $1,280,000. Funds are available from hospital patient revenue ($665,600) and tuition fees ($614,400).

9. **MVSU** - Approved the request to increase the amount of **Ayers** funds that will be used to fund **GS 106-201, J.H. White Library Enhancements**, from $7.5 million to $8.5 million while decreasing the amount of **HB 1722, Laws of 2009**, funds from $2.5 million to $1.5 million. The $7.5 million is the original amount requested and allocated through the **Ayers Settlement** as approved by the
Board for this project. The university will use the remaining $1 million of excess Ayers funds for the project. The project will consist of $8.5 million in Ayers funds allocated for GS 106-201, White Library Enhancements and an additional $3 million in other state bond funds. The total project budget will remain $11.5 million for this project. Funds are available from HB 1641, Laws of 2008 ($250,000); SB 2988, Laws of 2003 ($255,000); SB 2010, Laws of 2004 ($250,000); SB 3158, Laws of 2001 ($745,000); HB 1722, Laws of 2009 ($1.5 million); and $8.5 million in Ayers funds.

10. **MSU** - Approved the request to name the basketball practice facility which is nearing completion as the Mize Pavilion at Humphrey Coliseum. The practice facility was made possible in large part by a major lead gift from Mize Foundation of Tupelo, MS, whose leadership also encouraged other significant donations for the project.

11. **UMMC** - Pending approval by the Mississippi Department of Environmental Quality, the Board approved the request to delete Build #277 Outpatient Department Addition from state inventory and demolish it. Due to conflicts with structural column layouts and required design layouts for the new Cardiovascular Renovation Project, the existing one story structure needs to be removed. The Mississippi Department of Archives and History has reviewed the design documents and has approved the demolition. All legal documentation will be kept on file in the Office of Real Estate and Facilities.

**LEGAL**

12. **UMMC** - Approved the request to hire Balch & Bingham, LLC as outside counsel for healthcare regulatory and compliance matters, and administrative hearings. The term of the contract will be from March 1, 2011 through June 30, 2012. The hourly rate payable to attorneys will be $215.00 with the maximum amount payable under the contract to be $50,000. Either party may terminate the contract with thirty days notice. The contract will be paid from hospital patient revenues.

13. **System** - Approved the request to seek an official Attorney General’s Opinion regarding the disagreement among state agencies about when the Ayers settlement implementation began as to legislative funding of the academic programs required under the settlement agreement. The request for an official Attorney General’s opinion would also inquire as to whether the Ayers settlement academic program funding, as specifically provided for within the Ayers settlement agreement, must be appropriated by the Mississippi Legislature over the course of seventeen separate fiscal years. The draft opinion request letter is included in the bound February 17, 2011 Board Working File.

The purpose of the agreement is to provide continued billing services for UMMC’s home dialysis accounts. The renewed contract will be effective February 1, 2011 and will cover a 17 month period ending on June 30, 2012. Total costs during the new period are not expected to exceed the original contract fees ($853,264). CONSENT

AGENDAS
1. **DSU – APPROVAL OF AIRCRAFT PURCHASE**

**Agenda Item Request:** Delta State University requests approval to purchase three Diamond Aircraft “twin trainers” for the Commercial Aviation program. The unit cost of the aircraft is $592,501 for a total purchase of $1,777,503.

**Vendor Legal Name:** Diamond Aircraft, London, Ontario

**Specific type of contract:** Purchase Agreement

**Purpose:** The purpose of the purchase is to update the Commercial Aviation fleet. There are 22 aircraft in the current fleet. The most current model year in the fleet is 2002. Many of the aircraft have a high number of flight hours and outdated technology. The plan is to ultimately purchase 8 new aircraft and sell 12 existing aircraft which will reduce the fleet to 18. The new aircraft will be financed with the proceeds from the sale of existing aircraft and IHL’s master lease funding through FirstSouthwest Bank.

**Contract Amount:** The total purchase price is $1,777,503.

**Funding Source for Purchase:** The purchase will be funded through IHL's master lease financing. Debt service on the lease will be financed using Commercial Aviation student fees and state appropriated funds.

**Vendor Selection Process:** Delta State University advertised the purchase of the aircraft as required by state law in newspapers as well as in the industry publication, Trade-A-Plane. Diamond Aircraft and two other companies submitted bids. The Diamond Aircraft bid was not the lowest bidder; however, Diamond was the only bidder that met all the advertised specifications in the RFP. Moreover, the Diamond aircraft will not require additional investments in training equipment as would the other aircraft. Diamond is a proven aircraft with lower operating costs, and DSU’s commercial aviation instructors are familiar with this line of aircraft equipment. Because the purchase exceeded $500,000 the purchase was submitted to the Public Procurement Review Board for approval. The Board approved the purchase on March 2.

**Staff Recommendation:** Based on Board Policy 707.01, Land, Property and Service Contracts, Board approval is required prior to execution of the contract for all other land, personal property, and service contracts that require an aggregate total expenditure of more than $250,000. The agreement has been reviewed and approved by the Attorney General’s Office. Board staff recommends approval of this item.
2. **UM – APPROVAL TO ESCALATE BUDGETS**

a. The University of Mississippi requests approval to escalate its On-Campus Education and General budget and seeks spending authority approval for the budget shown below. Additional personnel costs are related to greater than anticipated enrollment increases and the balance is requested for library acquisitions.

When education and approved training are completed, a recipient MAY NOT work out of the State of Mississippi until contractual obligations have been totally fulfilled, except in the instance of Board approved REQUIRED military service. The recipient may not defer his/her service obligation in order to pursue an additional degree.

B. Within sixty (60) days prior to completion of approved training, the recipient will furnish to the Board the proposed location of utilization of the degree within the State of Mississippi, and expected begin date. It is fully understood that it is the responsibility of the loan/scholarship recipient to seek and secure an
approved location for his/her proposed utilization of the degree. The Board assumes no obligation to perform that function.

C. The recipient may select any location within the State of Mississippi to utilize the degree.

D. Loans/Scholarships made to recipients shall be made and based upon the following options for repayment or conversion to interest-free scholarships (REQUIRED military service excepted):

1. In lieu of payment in full of both principal and interest, a loan/scholarship recipient may elect to repay by entry into full-time¹ veterinarian work equal to the period provided by the Loan/Scholarship award. However, the period of service to be performed shall never be less than twelve (12) consecutive months, regardless of the length of study provided under the Loan/Scholarship.

2. In the alternative, in the event of abandonment or abrogation of the option for repayment as provided for in VII. D. 1, the remaining balance of unpaid or undischarged principal and interest shall become due and payable over the remaining period of time made in sixty (60) or less equal monthly consecutive installments, as determined by the Board, commencing one (1) month after graduation or termination of attendance as a full-time student or termination of full-time employment or termination of other deferment.

E. Designate, by written agreement, a time in the future when the obligations shall be fulfilled according to the requirements of the Contract and Note, in the event that obligations imposed by the terms of the Contract and Note are delayed or rendered impossible or impracticable to temporary impairment of health or other conditions beyond the control of the recipient.

F. Loans shall either be converted to whole or partial scholarships in accordance with this subsection, or repaid in accordance with this subsection, or repaid in accordance with this subsection and the provisions of Section VIII, below.

G. If a recipient chooses a location outside the State of Mississippi to utilize his/her degree, then that person shall immediately become liable to the Board for the amount remaining of unpaid principal and interest due and payable and shall become due and payable on demand to the Board in equal monthly consecutive installments, as determined by the Board, with interest calculated at the current Federal Stafford Loan rate at the time of the occurrence of the event.

VIII. LOAN OPTION

A. Recipient is allowed to repay his/her loan (principal and interest thereon) in sixty (60) or less equal monthly consecutive installments, commencing one (1) month after graduation or post-graduate training or termination of attendance as a full-time student or termination of other deferment.

B. The rate of interest charged a loan recipient on the unpaid balance shall be at the current Federal Stafford Loan rate at the time of the occurrence of the event, commencing one (1) month after graduation or post-graduate training or termination of attendance as a full-time student or termination of full-time employment or termination of other deferment.

C. If the recipient fails to repay his/her loan (principal and interest thereon) in sixty (60) or less equal monthly consecutive installments, commencing one (1) month after graduation or post-graduate training

¹Full time as used in VII. D. 1 is understood by the parties to mean that the veterinarian shall maintain the normal full-time work schedule where the veterinarian is employed.
or termination of attendance as a full-time student or termination of full-time employment or termination of other deferment, all principal and interest outstanding, together with costs of collection shall become immediately due and payable and demand shall be made by mailing the same to the obligor at the last address furnished by said obligor. Should payment of the sum due not be made in full within thirty (30) days, on the 30th day following the date demand was made, the Contracts and Notes executed by the obligor shall be placed with an attorney for collection. At this point the obligor shall become liable for reasonable attorneys’ fees and court costs, in addition to the other sums due and owing.

IX. **DEATH/TOTAL AND PERMANENT DISABILITY/BANKRUPTCY**

A. **Death**

1. If an individual recipient dies and that recipient has elected to repay by service as specified in Section VII. D. 1, then the recipient's obligation to make any further payments of principal and interest on the loan is canceled.

2. The Board may determine that such a recipient has died on the basis of a death certificate or other proof of death that is acceptable under applicable State Law. If a death certificate or other acceptable proof of death is not available, the recipient's obligation on the loan is canceled only upon a determination by the Board on the basis of other evidence that the Board finds conclusive.

3. Once the Board has determined that such a recipient has died, the Board may not attempt to collect on the loan from the recipient's estate.

B. **Total and Permanent Disability**

1. If the Board determines that an individual recipient is totally and permanently disabled, the recipient's obligation to make any further payments of principal and interest on the loan is canceled. A recipient is not considered totally and permanently disabled on the basis of a condition that existed before he/she applied for the loan, unless the recipient's condition has substantially deteriorated since he/she submitted the loan application, so as to render the recipient totally and permanently disabled.

2. After being notified by the recipient or the recipient's representative that the recipient claims to be totally and permanently disabled, the Board shall promptly request that the recipient or the recipient's representative obtain a certification from a physician who is a doctor of medicine or osteopathy and legally authorized to practice, on a form provided or approved by the Board, that the recipient is totally and permanently disabled. The Board shall continue collection until it receives the certification or receives a letter from a physician stating that the certification has been requested and that additional time is needed to determine if the recipient is totally and permanently disabled. After receiving the physician's certification or letter, the Board may not attempt to collect from the recipient.

3. If the Board determines that a loan owed by a recipient who claims to be totally and permanently disabled is not eligible for cancellation for that reason, or if the Board has not received the physician's certification, described in paragraph [B](2) of this section, within 60 days of the receipt of the physician's letter described in paragraph [B](2) of this section, the Board shall resume collection and shall be deemed to have exercised forbearance of payment of both principal and interest from the date the Board received the physician's letter described in paragraph [B](2) of this section.

C. **Bankruptcy**
Loans made pursuant to the Veterinary Medicine Minority Loan/Scholarship Program are nondischargeable in bankruptcy.

X. **WARRANTY**

The acceptance of a Veterinary Medicine Minority Loan/Scholarship shall be deemed equivalent to an appointment by each recipient of the Secretary of State of the State of Mississippi to be his/her true and lawful attorney, upon whom may be served all lawful processes and summons in any action or proceeding against him/her in the event he/she removes himself/herself from this State and the processes of its courts, and growing out of any breach of Contract and Note by the recipient for failure to fulfill his/her Contract and Note with the Board or to repay the Veterinary Medicine Minority Loan/Scholarship including interest pursuant to the law and Contract and Note, and said acceptance of the loan rights and privileges shall be a signification of the applicant’s agreement that any such process or summons against him/her which is so served upon the Secretary of State, shall be of the same legal force and validity as if served on him/her personally. The venue of all causes of action against such nonresidents shall be Hinds County, Mississippi.

XI. **I HAVE READ AND I UNDERSTAND ALL OF THE ABOVE AND I HEREBY AGREE TO ABIDE BY ALL OF THE RULES AND REGULATIONS FOR THE VETERINARY MEDICINE MINORITY LOAN/SCHOLARSHIP PROGRAM AS SET FORTH BY THE BOARD OF TRUSTEES OF STATE INSTITUTIONS OF HIGHER LEARNING.**

Board Policy §902, Initiation of Construction Projects

The Board must approve the initiation of a project for the construction of new facilities, repairs and renovations to existing facilities and requests for a capital outlay with a total project budget exceeding $1,000,000 regardless of how the projects are financed. It is the intent of the Board that its appropriate staff under the direction of the Commissioner shall be involved in all phases of building projects requiring approval by the Board. All construction, repairs, and renovation projects with a total budget of $1,000,000 or less may be approved by the Institutional Executive Officer. However, all projects utilizing any state bond funds, including Ayers funds, must be initiated with STAFF approval from the Office of Real Estate and Facilities. No further approvals are required by IHL staff for projects of $1,000,000 or less unless the budget changes. All budget changes for these projects must be reported to the Office of Real Estate and Facilities.

Board Policy §904(A), Board Approval

When funding has been secured from whatever source, each institution shall bring all new projects to the Board for the approval of the project initiation and the appointment of a design professional, as required in Board Policy §902, Initiation of Construction Projects. This request shall include a detailed description of the work to be accomplished, the total budget, the funding source and the design professional recommended to the Board for approval.

After the Board has granted approval of both the initiation of a project and the appointment of a design professional, no further Board action or approval is required for the completion of the project if the following conditions are met:

1. The detailed description of the work to be accomplished, as specifically approved by the Board within the project initiation, has not changed.
2. The total project budget has not increased beyond the amount specifically approved by the Board as part of the project initiation;
3. The funding source has not changed from that specifically approved by the Board as part of the project initiation; and
4. The design professional previously approved by the Board has not changed.
If the above four conditions have been met, the Board’s Real Estate and Facilities staff, through the Commissioner, shall have the authority to approve any and all necessary documents related to the completion of the subject construction project, including the approval of construction documents, the advertisement and receipt of bids, the approval of a bid, the award of a contract and any change orders.

Prior to the commencement of construction, the Board must approve the exterior design of the major buildings that have aesthetic impact on the overall campus, regardless of the cost of the project. This requirement applies to all buildings and facilities on an institution’s property even if the land is leased to an institution’s affiliated entity or a private developer.

Board Policy §919, Pre-requisites for Building Modification or Demolition

Prior to scheduling a building on an institution’s property for restoration, improvement, construction, repair, renovation, rehabilitation, demolition or similar work, the institution shall secure an inspection and approval from the Mississippi Department of Environmental Quality and a permit or written permission from the Mississippi Department of Archives and History authorizing the requested building action. After obtaining approval from these two agencies, a request for the building modification or demolition shall be submitted to the Board for approval. The request to the Board must include documentation evidencing approval by the Department of Environmental Quality and the Department of Archives and History.

IHL PROJECTS

1. UM – IHL 207-345 – University Housing

   **Project Request:** The University of Mississippi requests approval to appoint Harrell Contracting Group as the Construction Manager-Advisor for the University Housing project.

   **Design Professional:** Cooke Douglass Farr Lemons + Eley Guild Hardy – A Joint Venture

   **Purpose:** The University of Mississippi has a demonstrated need for more housing on campus. The project would provide full design services for a university-based student housing building(s) with the number of beds anticipated by the university being approximately 800 beds. The university is now asking to appoint a Construction Manager–Advisor for the University Housing project. The request to award this contract to Harrell Contracting Group is being made after a publically advertised “Request for Qualifications” was issued. Submissions from interested firms were received by the University of Mississippi, Office of Procurement Services. The RFQ's were reviewed by the selection committee and a short-list of two firms was determined and followed by interviews.

   The project was initiated with the Board on November 18, 2010. The University of Mississippi is seeking approval to appoint a construction manager for this project in accordance with Board Policy §904(A), Board Approval, that requires each institution to bring all new projects to the Board for the approval of the project initiation and the appointment of a design professional, as required in Board Policy §902, Initiation of Construction Projects.

2. **UM – IHL 207-347 – Northgate Apartments HVAC Renovation**

Project Request: The University of Mississippi requests approval to initiate a project, Northgate Apartments HVAC Renovation, and to appoint Corbett Legge & Associates as design professional.

Design Professional: Corbett Legge & Associates

Purpose: This project will renovate the HVAC systems in the Northgate Apartments. The project was originally bid with a budget under $1,000,000 which did not require Board approval. However, the actual bids exceeded the estimated project costs and the cost threshold. As a result, the university is requesting to initiate the project and to appoint the design professional as stated in Board Policy §904(A), Board Approval.

The University of Mississippi is seeking approval to initiate the project in accordance with Board Policy §904(A), Board Approval, that requires each institution to bring all new projects to the Board for the approval of the project initiation and the appointment of a design professional, as required in Board Policy §902, Initiation of Construction Projects.

3. JSU – GS 103-234 – ADA Compliance Phase II-B

Project Request: Jackson State University requests approval to increase the project budget for the ADA Compliance Phase II-B project from $4,532,985.50 to $5,032,985.50 for an increase in the amount of $500,000.

Project Phase: Design Phase

Design Professional: WFT Architect P.A.

General Contractor: N/A

Purpose/Justification: The project is currently in the design phase. This is the third budget escalation request made for this project by the university. The escalation in the project budget is necessary to replace and upgrade the existing elevators in the Administration Tower that are constantly failing due to the elevators not being renovated or replaced since the building was originally constructed in 1972. The increase in project budget will also help the university to plan and construct the interior modifications required at the exterior and interior entrances of the Old Industrial Arts building as well as other needed repairs to the vertical circulations,
restrooms, and the foundation of the building. This project will help the university to meet requirements of the American with Disabilities Act (ADA) on the main campus as well as off campus properties. Jackson State University is acting in accordance with Board Policy §904(A), Board Approval, that requires each institution to submit all project budget increases to the Board for approval.

**IHL PROJECTS**

**Project Request:** The University of Mississippi Medical Center requests approval of change in scope to include additional plumbing revisions to second and fourth floors with no escalation of the project budget.

**Design Professional:** Dale and Associates, P.A.

**Purpose:** The university is seeking approval to change project’s scope to include additional plumbing and utility service renovations in the ceilings of this project that
will ultimately serve renovations on the Second and Fourth Floor areas being designed under a separate project. The project IHL #209-538, 4th Floor–764 Lakeland Renovations design is in progress and provides for renovations on the Second and Fourth Floor level of the same facility. The current project will be completed and in service as an Ophthalmology Clinic before construction will begin on IHL #209-538. Preliminary estimates ($145,986.00) confirm that the present Project budget contingency is adequate and an escalation of budget is not required. The university believes it is in its best interest to incorporate the required “below floor” plumbing work into the current project to prevent interruptions and damages to Clinic operations and to reduce the construction time and “after hours” scheduling of work activities on the future IHL #209-538 project.

The University of Mississippi Medical Center is seeking to change the scope of the project in accordance with Board Policy §904(A), Board Approval, that requires each institution to seek Board approval for all changes to the original project scope approved by the Board during the initiation of the project.

1. SYSTEM -- REPORT ON ENERGY

The Board of Trustees approved the final report of the Energy Efficiency Task Force and adopted three recommendations:

a. Establish a goal to reduce both System and institution energy use per square feet of space by 30 percent by the end of 2015 using FY 2006 as the baseline year with progress measured at the end of each fiscal year;

b. Adopt a system-wide Sustainability Policy; and

c. Adopt a system-wide approach to energy management.

The energy plans from the eight institutions, the Medical Center, and the Executive Office have been submitted to Dr. Betty Norman, MDA Energy Division Bureau Manager as mandated by Senate Bill 2821. We have not had a response from MDA as to acceptance. The institutions have reported through FY 2010. This information is being provided to the Board under separate cover.

The Board also passed the IHL Energy and Sustainability Policy for the system.

A meeting was held February 17 at IHL with Jim Jones (Task Force Leader), Trustee Ed Blakeslee, Harry Sims, Vic Puckett, and Linda McFall to determine next steps. Specifically, the team went over the IHL Energy and Sustainability Policy and developed a plan of action for oversight and reporting progress by the institutions. Names were recommended for positions to be filled on the IHL Energy Council. Length of time for service by the Council members was also decided and timelines were established for energy updates. A Council Charter was developed.

The next step includes the Commissioner drafting a letter to the proposed IHL Energy Council members inviting them to serve. A conference call will be scheduled with Council Members and facilities staff to kick off the process.

2. SYSTEM -- REPORT ON REVERSE AUCTION

Mississippi State University (MSU) was asked by the Mississippi Institutions of Higher Learning (IHL) Board of Trustees and IHL staff to lead a pilot project related to reverse auctions. MSU requested approval from the State of Mississippi's Office of Purchasing, Travel and Fleet Management and was given approval to move forward with a pilot Reverse Auction provided that a report would be submitted upon the completion of the pilot project. The complete report will be provided to the Board under separate cover.
Two pilot reverse auctions were conducted – one system-wide and one at an individual university. Neither pilot program was rated successful by the procurement officers involved. The reverse auction brought three people into the process – the procurement officer, the vendor, and the auctioneer – rather than the normal two which complicated communication. It was originally thought the first auction would save approximately $85,000, but due to miscommunications between the three parties, the process actually cost the institutions more money than other purchasing methods.

The second auction which involved only one institution – MSU – failed due to the auctioneer having conversations outside the normal chain rather than with the procurement officer. As a result of these two pilot programs, several observations were noted. First, communication is critical to the success of this type program and the procurement officer must be able to communicate not only with the auctioneer but the preferred vendor as a result of the auction. Any attempt to circumvent that process should invalidate the auction. This should be made clear to the auctioneer at the beginning of the process.

Second, in performing the reverse auction, the system had to rely on the procurement officer at MSU to manage the auction. This put an undue burden on MSU's procurement staff who was already busy and had the unintended consequence of MSU having to fund the process for the system by using their staff.

It was clear there could be savings using the reverse auction method of purchasing; however, communication is critical. For reverse auctions to be truly successful beyond a single institution there must be system staff dedicated to this process at the Board office. Currently, because of the time required, there is not a person who could manage the reverse auction process at the system office.

**Staff Recommendation:** The Commissioner will direct the institutional executive officers to have their procurement officers work together to look for opportunities to conduct reverse auctions both at their institution and within the system. As the Board continues to investigate shared services opportunities, a system procurement officer for the regional institutions should be part of that discussion.

1. **SYSTEM -- REPORT ON SPACE**

The space inventory was recommended to the Board of Trustees as an efficiency based on the need to develop a system to ensure effective and efficient use of one of IHL's largest asset classes – facilities. IHL manages approximately 1,600 buildings and more than 32 million square feet. For FY 2010 the historical value of IHL's buildings totaled more than $2 billion. The goal of the efficiency was to know 1) what IHL owns, 2) how the assets are used, 3) how the assets, and use thereof, affect the academic progression of students, and 4) the sufficiency and effectiveness of the fiscal resources currently being spent on facilities in order to advise the Board on their stewardship responsibility.

Little information was available at the system office to provide proper oversight to ensure the Board's fiduciary responsibility. Collection of data was a daunting task for the campuses and could only be done in phases. Therefore, the committee responsible for this efficiency opted to tackle the project in three phases.

The first phase was a compilation of a facility inventory. In other words, the goal was to reconcile three different reports – State of Mississippi's Bureau of Building data, State Auditor's property reports, and IHL financial statements – by doing an actual count on each campus. Phase I is almost complete. All institutions except one have provided the initial data to complete phase I. Some of the institutions provided inventory information using current staffing; others outsourced Phase I. The next phases which consist of Phase II and Phase III will require financial resources to complete.

The Efficiency Team Leader is Roger Baker, Campus Master Planning, Mississippi State University. Other team members include Jessie Stephney (ASU), Linda Smith (DSU), Wayne Goodwin (JSU), Jody Kennedy (MUW), Nora Miller (MUW), Tommy Verdell (MVSU), Nina Jones (UM), Ivory Bogan (UMMC), Jerry Moore (UMMC), Carla Casio (USM), and Brad Rowland (IHL).

The full report is being sent to the Board under separate cover. Board staff will provide the Board of Trustees an update at this meeting on the Space Efficiency including Phase II and III.

1. SYSTEM – APPROVAL OF PROPOSED AMENDMENTS TO BOARD POLICY 602 NONRESIDENT ADMISSIONS (FINAL APPROVAL)

F. Nonresident Admissions

Any student identified as a nonresident will be admitted qualified for admission to a Mississippi institution of higher learning based on equivalent preparation as determined by the admitting institution.

If, however, an admitting institution determines that anticipated enrollment will exceed the institution’s capacity to adequately serve all prospective students who are otherwise qualified for admission, then the institution may make appropriate admissions decisions from among the pool of otherwise qualified non-resident applicants in light of institutional capacity and consistent with constitutional and other legal requirements, as well as in light of the IHL and the admitting institution’s values, mission, and goals.

Staff Recommendation: Board staff recommends approval of this item.
1. **UMMC – REQUEST FOR WAIVER**

   **Agenda Item Request:** The University of Mississippi Medical Center requests a waiver of the annual audit requirement applicable to the IHL approved affiliation agreement with the Medical Center Research Development Foundation (MCRDF) for the fiscal year ending June 30, 2011.

   **Justification:** As per requirements stipulated in Board Policy 301.0806 D.9., copies of the June 30, 2010 audited financial statements of the MCRDF from an independent Certified Public Accounting (CPA) firm are being submitted to the Board under separate cover. The request for the waiver for FY 2011 is based on the assets of the MCRDF being less than $30,000 at June 30, 2010. The cost of the related audit would be approximately $3,500.

   There has not been material fiscal activity in the MCRDF to-date and it is anticipated there will not be through the end of this fiscal year. Therefore, the financial statements will be materially the same as the previous fiscal year. The estimated cost of an audit for June 30, 2011 remains at $3,500. In order to save funds, UMMC requests that the IHL Board waive the requirement of an annual audit by the CPA firm for fiscal year 2011. An audit will be initiated if circumstances change and MCRDF receives additional funds that materially impact the financial statements.

   **Staff Recommendation:** Based on Board Policy 301.0806 D.9., University Foundation/Affiliated Entity Agreements, Board approval is required to waive the requirement of an annual audit by a CPA firm on a showing of adequate grounds. The request and required supporting documentation has been reviewed and approved by Board staff. Board staff recommends approval of this item.

2. **SYSTEM – UPDATE RELATED TO FOOD SERVICES AND HOUSING OPERATIONS**

   Staff will provide an update on the Food Service and Housing Operations with recommendations of proposed rates for a three-year period. Information will be provided under separate cover.
