Purpose

In 1921, the founding purpose of the Mississippi Association of Colleges and Universities (MAC) was to provide opportunities for all sectors and levels of higher education to meet together, to share concerns, and to discuss common goals and issues.

The purpose of the MAC Association shall be to promote goodwill among colleges and universities; to stimulate academic and professional cooperation among the membership; to consider common problems; to perform an accrediting function for higher education in the state of Mississippi; and to pursue those matters of common interest to the membership.

Foreword

The purpose of publishing the Mississippi Association of Colleges and Universities (MAC) Directory is to assist college administrators in Mississippi in developing a network of resource personnel for assistance in planning and problem solving. Listed individuals receive a direct invitation to the annual conference sponsored by MAC. The president of each institution represented submitted names.

The colleges and universities supplied the information for this directory. Jackson State University and the Mississippi Institutions of Higher Learning, Office of Academic and Student Affairs, coordinated its production.
