MISSISSIPPI PUBLIC UNIVERSITIES

PHYSICAL FACILITIES

QUICK FACTS

• The Mississippi Public University system has 8 main university campuses plus the University of Mississippi Medical Center and 12 satellite centers.

• The system has 1,653 buildings, which account for approximately 23% of the State of Mississippi’s 7,078 buildings. Prior to 1980 there were only 903 total buildings in the university system.

• The system has over 34 million gross square feet (GSF), which accounts for 46% of the State’s 74 million GSF.

• Approximately 47% of Education & General space is over 25 years old.

• Approximately 50% of Residential space is over 25 years old.

• Approximately 18% of IHL system-wide assignable square footage is classroom and lab space. Approximately 21% of assignable square footage is residential space.

• Campuses are located on over 12,000 total acres of land.

• The estimated replacement value of all university buildings is $7.5 billion, which accounts for approximately 50% of all the state building’s $15.0 billion replacement value.
