
MISSISSIPPI'S BUSINESS

Center For Policy
Research and Planning

September 2008

Monitoring the State's Economy

We will not be publishing a September Issue of Mississippi's Business. We have discovered problems in some of the data used to calculate the Mississippi Index of Coincident Indicators. Additionally there is a \$700 billion rescue package for the financial sector pending which will have a profound impact on the outlook for the economy. We believe it would best serve our readers if we wait until these issues are resolved before publishing Mississippi's Business. We expect both issues to be resolved before the October issue.
