

The Mississippi Association of Colleges and Universities (MAC) was founded in 1921 to provide opportunities for all sectors and levels of higher education to meet together, to share concerns, and to discuss common goals and issues.

The purpose of the Association is to promote goodwill among all levels and sectors of higher education in Mississippi; to stimulate academic and professional cooperation among the member institutions; to consider common problems; and to pursue those matters of common interest to the membership.

Foreword

The purpose for publishing the Mississippi Association of Colleges and Universities (MAC) Directory is to assist college and university administrators in Mississippi in developing a network of resource personnel for assistance in planning and problem solving. The president/chancellor at each institution represented was invited to submit names for inclusion in the directory.

The colleges and universities supplied the information for this directory. The Mississippi Institutions of Higher Learning Office of Academic and Student Affairs coordinated its production.
